Crisp County School System

"Preparing students to make a difference in the new millennium."

The Crisp County School System is committed to improving the achievement of all students. Whether in pre-kindergarten or 12th grade, Crisp County students deserve and receive the best education opportunities available.

Reading, Language Arts, and Mathematics have taken a priority that has Crisp County students testing well above average in academic standard tests. The system boasts four quality elementary schools, a middle school and a new high school.

The Crisp County School System operates on the belief that all students are capable of learning and is dedicated to providing quality professional instructors that insure your child is given the best education Crisp County has to offer. The four elementary schools, two primaries for kindergarten through second grade and two for third through fifth, maintain a low pupil to teacher ratio-providing students with more opportunities for small group instruction. All four elementary schools have been designated Reading First schools under the state's new reading initiative. Under this model, students in K-3 receive three hours of reading instruction daily, including one hour of phonics instruction. Through tests, teachers are able to use their imaginations to experiment in both music and art.

The middle grades program (6-8) is designed to provide students with a well-rounded educational experience with the adolescent's special needs in mind. A math curriculum, based on the National Council of Teachers of Mathematics, is helping make math fun for all middle school students.

In Language arts, there are programs that include a reading program at grade 6 and literature at grades 7 and 8, as well as instruction in creative writing and English.

A variety of exploratory courses are offered in art, music, physical education, computers, careers and technology at the middle school.

Located in the old high school, the middle school offers students many extracurricular opportunities including band, cheerleading, football, basketball, tennis, the BETA Club, government and more.

Crisp County High School

Moving on into Cougar Country, Crisp County High School is a comprehensive school offering college preparatory and career programs.

Advanced placement courses in social studies, science and language arts are an integral part of

the college prep curriculum. The school system currently has block scheduling which provides students more opportunities for accelerated classes and help in remediation.

The Tech Prep Program formed a consortium with South Georgia Technical College (SGTC) and Georgia Southwestern State University. This provides a sequence curriculum so those students taking vocational/technical courses at CCHS can earn credit at South Georgia Tech.

The opening of the new high school in 1995 was a historic event for the school system and community. It provides the future of Crisp County a state-of-the-art school facility and an environment where learning is fun.

The high school offers a wide variety of other extracurricular activities including varsity and junior level football, baseball, girls and boys track, softball, tennis, wrestling, band, cheerleading, dance and an award winning ROTC program.

Of the 186 school systems in Georgia, Crisp County is one of approximately 70 systems accredited by the prestigious Southern Association of Colleges and Schools, the highest accrediting agency for colleges and schools in the Southeast.

Crisp Academy

In search of a private school, look no further than Crisp Academy, a co-educational college preparatory private school serving grades K3-12. The school provides a diverse curriculum in a proactive educational environment.

Foremost among objectives of the academy is that of providing for its students a sound education designed to prepare young men and women for effective citizenship in a college or university.

Throughout each grade level, academics are emphasized in the most up-to-date educational programs. Crisp Academy also provides students with extracurricular programs in athletics, literary, drama, and music.
